User-Friendly Innovation

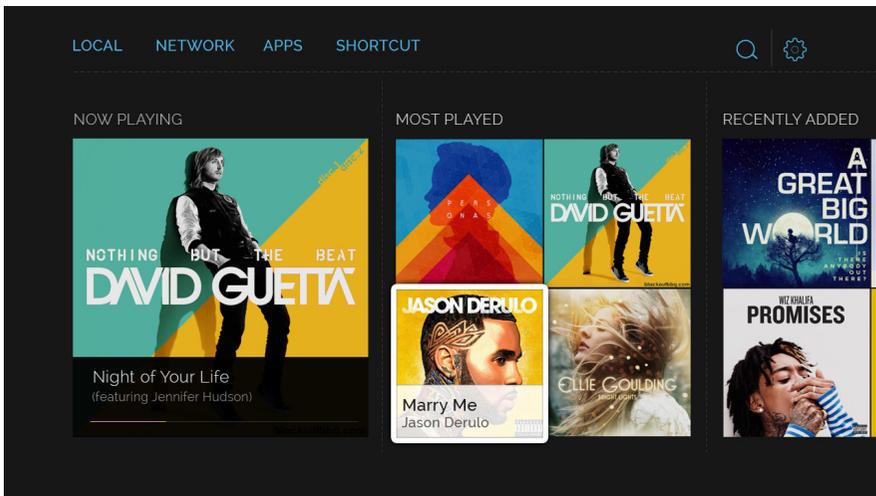

Media Home OR Music Home

Adding a whole new dimension to user interface, you can now seamlessly switch between Media Home and Music Home at your preference!

Media Home User Interface

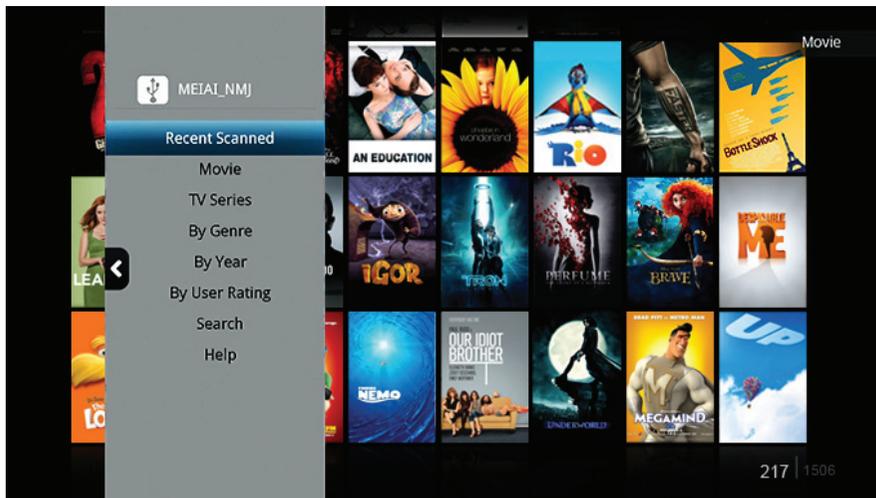

Music Home User Interface

Movie Jukebox

The Networked Media Jukebox (NMJ) automatically scans your media source and downloads useful information such as the cover-art, movie synopsis, cast and director. With the addition of multilingual support, you can enjoy your videos in your native language (supports up to 20 languages).

Archives At Your Fingertips

Browse your media collections on your NMJ Navigator Companion App via your iPad® or Android® Tablet while enjoying them contentedly on your TV!

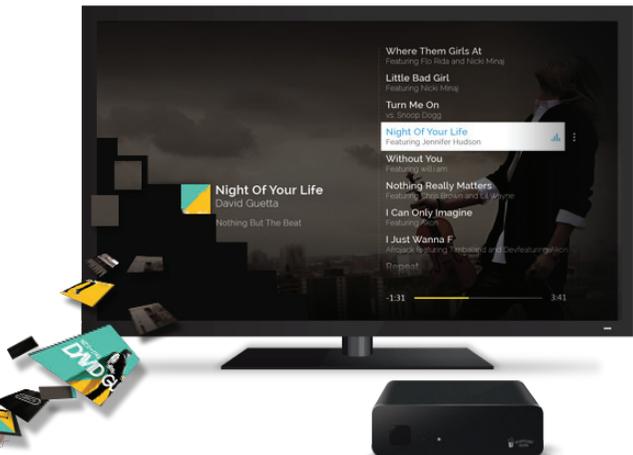

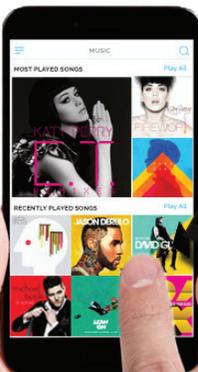

NMJ Navigator Companion App

Powerful Creativity and Interactions

Now with NMJ Mobile Companion App, you can take your audio content and play them back without having to turn on your TV!

NMJ Mobile Companion App
